THE CELEBRATED IMPORTED HORSE

North Star,

WILL stand the ensuing season at the Livery stable of the subscriber, in Pittsburgh, from the 20th *March*, until the 1st of August, and cover mares at eight dollars the season payable the 1st of September next: Five dollars (cash) the single leap; and Sixteen dollars to insure a colt, to be paid as soon as the mare is known to be with foal; the owner parting with the mare, or removing her, forfeits the insurance money, and in all cases half a dollar to the groom, to be paid when the mare is put to the horse. Any person bringing three mares, and being responsible for the payment, shall have a deduction made on the foregoing prices of 12 and a half per cent. The colts of this horse are so very promising, that they will fully recommend him wherever they are known. He is a beautiful dark bay, rising 14 years, and in size, make, muscle, bone, and correct movement, equal, if not superior to any horse on the continent of America. He is allowed by the best judges to be better formed for the improvement of the American breed of horses, than any horse ever imported. He is seventeen hands high, elegantly proportioned, of great strength and moves uncommonly light, and with speed in all his gaits. His sire was sir John Pennyman's renowned horse North Star, who was got by sir William Middleton's *Match'em*, out of Col. Howe's famous mare Lass of the mill The dam of the North Star was got by the duke of Grafton's Florezil, out of a Yorkshire mare,

(CERTIFICATES.)

This is to certify that I purchased the horse, North Star, of Mr. Moorcraft, Oxford-street, London, in the summer of the year 1801; that I shipped him with the horse Goldfinger, now at Frederick, in *Maryland* on board the ship Juno, capt. Stephens, bound to New-York, where he was landed in November, 1801.—North Star was only four years old when I purchased him.

JOHN COLES.

New-London (Con.), May 5, 1803.

The subscribers hereby certify, that they have seen several of the North Star's colts, and are of opinion that they are excelled by none in this neighbourhood for muscle, bone and movement. We have known some of them to sell at three years old, for 600 dollars, and 800 has been refused for one of that age

John Baer, Andw. Graff, Jacob Graff, and Adam Reigart, jun,

March 1 1806.

I do hereby certify, that John T. *Mason*, esq. sent two mares last season to North Star, each foaled a horse colt, which in my opinion are not excelled in point of size figure and form by any colts of their age on the continent. I have also seen several others of his colts, all of which confirm North Star to be a superior foal getter.

M. Bayley, agent for John T. Mason, esq. Washington county, Maryland.

N. B. All persons who put mares last season to the above horse, and who failed in getting colts, shall have the season to those mares at half price.

Country produce will be taken in payment.

Dr. Barber's Horse Powder.

THE various diseases to which that noble and useful animal the Horse is subject, have occasioned many remedies to be offered to the public under different forms, with high ecomiums, and sanctioned by dignified names, for the cure and preservation of them; some of these are injurious, others at best of little use, add many wholly improper to answer the intention to which they are recommended; a judicious and really useful composition free from those objections, has therefore long been desired by many gentlemen who have valuable horses, and are unwilling to trust them to the care of designing, pretended Farries, or ignorant Hostlers, their wishes are at length fully gratified by Doctor Barber, being prevailed upon to allow his valuable Horse Powder, (which has proved so efficacious in the various diseases) to be prepared in quantities under his immediate inspection and kept in convenient packages with suitable directions. It is by him recommended, in the following cases, viz for horses foundered by eating to an excess, or drinking cold water when warm, to such as discover any symptoms of Glanders, the distemper, Coughs and Yellow-Water, or are exposed to infection by being with other horses affected by these complaints, and in all cases attended with feverish symptoms, sluggishness loss of appetite, or depression of their spirits.

CHURCHE'S

Anti-Bilious Pills.

AN accumulation and vitiated state of the Bile, during the Summer and Autumnal seasons, having of late become very common in the United States, and justly alarming, as predisposing to Bilious and other Fevers; Jaundice, Bilious cone, Dysentery, Cholera Morbus, &c. must render a medicine particularly acceptable that is calculated to correct such a habit of body, and to remove the cause of those complaints; especially if it is at the same time perfectly safe, easy in its operation, and the dose small

With this view the Anti-bilious Pills prepared by the Subscribers are confidently recommended to persons of bilious habits, especially if inclined to costiveness, or to others when they experience the following symptoms which frequently attend redundancy of Bile, viz. pain in the head or back, sickness at stomach, chills, a fever, more especially if those symptoms be accompanied by redness, or faint yellowness in the eyes.

WORM TEA.

BEING one of the most valuable Medicines ever sold, for the destruction of Worms in the human body, and more particularly adapted for Children, of which complaint, thousands annually fall a sacrifice. It being now so well established that no certificates or ecomiums are necessary to recommend it, being altogether a composition of Vegetables; since this medicine was first discovered upwards of one hundred thousand persons have experienced its beneficial effects.

This is the second robbery of the mail, from the same place, within 9 months. The letters (nine excepted) were found on Saturday morning in an alley of that town, torn open. It is not known what money, if any, was inclosed in the letters, but several drafts for large sums, were left untouched by the villain or villains.

WASHINGTON CITY, *March* 12.

Letters have been received in this city from Mobile to the 6th February. The Spaniards yet retain possession of the fort. Col. Cushing, with six gun vessels, six more being expected, is lying near the fort. There are 100 men at Fort Stoddert, who, with 250 under the command of Col. Cushing, are understood to be deemed sufficient to reduce the fort if occasion should require such a course.

NATCHEZ, *February* 25.

MILITARY ARRANGEMENT.

We are informed from a source on which we can place implicit reliance, that general Hampton has made the following disposition of the army in this quarter:

Head Quarters are established at New-Orleans—the advance, consisting of light troops, under col. Covington, will take a position at or near the Pass of Christianne—col. Cushing with the 2d infantry, will keep an eye on Mobile, and is stationed at Fort Stoddert—lieut. col Pike, commanding the consolidated regiment, is stationed at Baton-Rouge, and has charge of this district, which extends as far as Natchitoches. We cannot withhold our approbation of this judicious arrangement of the commander in chief, which evinces an anxious solicitude for the welfare of the army, and for the protection of the frontier—and we are greatly deceived in our view of the subject, if it does not shew a determination of the general to visit Mobile and the adjacent country, in person. *Chronicle.*

NEW-ORLEANS, *February* 20.

We are informed that serious disturbances have been and still exist in the district of St. Helena—The populace refuse to obey the mandates issued by the new appointed judge. Mr. Sam. Baldwin formerly a Lieutenant in the U. States Marine corps who resides in that district in supporting the execution of a writ run a man through the body, the populace immediately seized Mr. Baldwin, and our informant says, tyed him neck and heels and said they would carry him to *Eaton Rouge*, but we presume it will be to *Mobile*, as Mr. Baldwin was an active friend of the Conventionalists.

We are fearful that many cases of a similar nature will take place unless military force stand ready to support the civil authority.

We are informed from respectable authority, (says the Baltimore American) that a few days ago, the President gave it as his opinion, that an Extra session of Congress would be necessary, on account of our Foreign Relations—and that it was highly probable that the 12th Congress would be convened some time about the 20th of May.

(Communicated for the REGISTER.)

Extract—"VERA CRUZ, Feb. 1, 1811. —Last Sunday, Jan 27th, an American brig and schr. entered this port, bringing us some provisions, under the mistaken idea that we were in want of them, but government immediately dispatched them without ceremony, and they did not remain half an hour in our port. Other shipments we understand were preparing in the U. States for this port; but they will have the mortification of not even being permitted to enter the bay."

In the determination of the Spanish government, disclosed in the preceding extract, to exclude the vessels of the United States from their ports in America, we learn the first effects of that policy, which directed the seizure of the Floridas, and their incorporation as a state of the union. But as the seizure and incorporation are now in strict consonance with the wishes of Napolean, *(although on another occasion, he had forbidden Mr. Jefferson to touch them,)* neither the Farmers nor Merchants of the United States must utter a regret, at the loss of the best markets, or the most lucrative commerce.

How long the ascendancy in our Councils, which this mode of thinking, and of multiplying the States demonstrates, will continue, we pretend not to predict.

VICTORIES IN MEXICO.

A correspondent, put in possession of the recent information from Mexico, by an arrival at Havanna, has enabled us to gratify our readess with extracts of letters, and copies of official despatches, respecting the splendid victories of the troops of the Vice-Roy, general Venegas, over the infatuated people, among whom the emmissaries of Bonaparte have succeeded in raising a rebellion now nearly crushed.—Those miscreants, who, by their artifices and false pretence, have seduced the Mexicans into ruin, with the expectation of preparing them to receive in due season the Corsican Yoke, have uninterruptedly landed from time to time on our shores, and availed themselves of every opportunity of reaching from hence their destination by stealth. Many hundreds of those pestiferious desperadoes are now here, at Philadelphia and in the neighbourhood, equally ready and hired to proceed to Spanish America or to join in any treason, which may, in the mean time, seem practicable here, for the furtherance of the dominion of Bonaparte.

Should these passages meet the eye of the magnaminous Mr. Madison, we exhort him to weigh well the power and the prowess of our Mexican neighbours, who, he will see, stormed and entrenched, and almost impregnable camp defended by 100,000 men with 80 cannon; and then let him ask his own understanding what he can expect to gain in the contest he was invited, by invading without right, pretext or provocation, the possessions of a power so formidable and engaged in a cause so holy as the resistance of a foreign yoke.

EXTRACTS OF LETTERS.

HAVANNAH, February 2—Yesterday evening arrived at this port from Vera Cruz, a schooner in 14 days, bound to Corunna. The captain says, that the insurgents, to the number of 100,000 men, were defeated six leagues from Guadelaxara, that the action was very obstinate, that resort was had to the bayonet, but that our troops defeated and dispersed the rebels, who lost many of their men and 80 pieces of cannon.

Feb. 14—Enclosed I send you some printed papers from Mexico, received to day by a vessel arrived from Vera Cruz, in 13 days, which will inform you of the state of things in New Spain, which must afford satisfaction to every good Spaniard. The more particular details which may arrive of the victory of Caleja, I shall send you, but must acquaint you before hand, that although in the Gazette of of the 23d, it is not said that our troops have entered Guadelaxara, that fact is known from private letters, of which we are in possession from thence.

From the Gazette Extraordinary of Mexico, January 23, 1811.

The troops which compose the army of brigadier Don Felix Caleja, have been crowned with glory, in the brilliant action fought on the 17th, in the plains of Calderon. Those valiant chiefs, officers and soldiers have ensured themselves immortal renown by their love for our sovereign, and by the constancy and repeated brave actions, in which they have sustained the triumph of our holy religion and the just cause of our common country.

The following communication, which his excellency the Vice-Roy has just received, proves that no praises can be greater than the merit of such valiant citizens.

SIR—It is now 4 o'clock in the afternoon when I have succeeded in placing myself in the enemy's camp, which was almost impregnable, like all the others they select and garrisoned with 100,000 men, and more than 80 pieces of artillery of every calibre, the most of them the best in America, all of which have fallen into my hands.

The obstinacy, boldness, and constancy of those infatuated men, could be only compared to the well known valor of the troops I have the honor to command. After an action of 6 hours, sustained with inflexible valor, I led them the third time to the attack of a battery of more than 60 cannon, well situated and well served. I took it without firing a shot, our troops sustaining with much calmness the violent fire of the enemy, which they continued until they found themselves surrounded on all sides, and pressed in their escape by our cavalry.

The army suffered some loss, and among the wounded is to be numbered the general of cavalry Don Miguel Emparan, in an action well sustained, with many other circumstances, an account of which I have not time to collect, but which I shall transmit to your excellency as soon as my various engagements will permit, recommending to you the many who have distinguished themselves.

I consumed in the action almost all my ammunition, but that taken from the enemy has again fully supplied me.

God preserve you many years.

FELIX CALEJA.

Camp at the bridge of Calderson, a league and a half from Zaporelenejo, Jan. 17, 1811.

To his Excellency the Vice-Roy Don Fraucisco Xavier Venegas.

From the Gazette Extraordinary of Mexico, January 17, 1811.

Divine Providence, which protects the valor and enthusiasm with which the troops of the king have strove to tranquilize the insurgents, by reducing them to order and peace, and by exterminating by force of arms, the banditti, who have so iniquitously seduced them, is clearly perceived in the repeated triumphs which have ensued over the rebels, as is manifested by the following communication which government has just received from brigadier Don Josef de la Cruz.

SIR

The enemy presented themselves before me in an advantageous position, and in great force. I attacked and routed them, taking from them from 25 to 30 pieces of cannon, all their ammunition, and leaving the whole field strewed with their dead. I write on horseback as I am following the pursuit of the fugitive rabble. The royal battalion of Marine, under the command of the naval lieutenant Don Pedro Negrete, covered itself with glory, The first battalion of Toluca, under its major, has done the same, and I want words to express the valor of the dragoons under the command of the brave lieutenant colonel Don Francisco Rodriguez. I send my adjutant Don Juan Guardaelmare to Valladolid, that they may come and collect all the artillery and whatever has been left on the field, because I cannot delay. I shall communibate to your excellency the details as soon as I can.

God preserve you many years.

JOSEF DE LA CRUZ.

REGENCY.

LONDON, Jan. 12 —Yesterday the deputation from both Houses of Parliament went up to Carlton House to present to his Royal Highness the resolutions, to which after a long discussion, the two houses had agreed.

The Lord President then read from a a paper in his hand.—

"That they were a Committee appointed to attend his Royal Highness with the Resolutions which had been agreed to by the Lords and Commons, for the purpose of supplying the defect of the personal exercise of the Royal Authority, during his majesty's illness, by empowering his Royal Highness to exercise that authority in the name and on the behalf of his Majesty, subject to such limitations and restrictions as shall be provided.

"And that they were directed to express the hope which the Lords Spiritual and Temporal and Commons, entertain, that his Royal Highness, from his regard to the interests of his Majesty, will be ready to undertake the weighty and important trust proposed to be invested in his Royal Highness, as soon as an act of Parliament shall have been passed for carrying the Resolutions into effect.

The Lord President then read and delivered to his Royal Highness the Resolutions, which are as follows:

"*Resolved*, That for the purpose of providing for the exercise of the Royal Authority during the continuance of his Majesty's illness, in such manner, and to such extent, as the present circumstances and the urgent concerns of the nation appear to require, it is expedient, that his Royal Highness the Prince of Wales, being resident within the realm, shall be empowered to exercise and administer the Royal Authority, according to the laws & Constitution of Great Britain, in the name and on behalf of his Majesty, and under the style and title of Regent of the United Kingdom; and to use, execute and perform, in the name and on behalf of his Majesty, all Authorities, Prerogatives, Acts of Government, and Administration of the same, that belong to the King of this Realm to the Law thereof, subject to such limitations, and exceptions as shall be provided.

"*Resolved*, That the power to be given to his Royal Highness the Prince of Wales, shall not extend to the granting of any rank or dignity of the Peerage of the Realm to any person whatever.

"*Resolved*, That the said power shall not extend to the granting of any office, salary, or pension, for other term than during his Majesty's pleasure, except such offices as are by law required to be granted for life, or during good behaviour.

"*Resolved*, That the said power shall not extend to the granting of any part of his Majesty's real or personal estate, except as far as relates to the renewal of leases."

"*Resolved*, That the care of his majesty's Royal Person, during the continuance of his Majesty's illness, shall be committed to the Queen's most excellent majesty, together with the sole direction of such portion of his majesty's household as shall be thought requisite for the care of his person, and that, for the better enabling her majesty to discharge the important task, it is also expedient, that a council shall be appointed to advise and assist her Majesty in the several matters aforesaid; and with power, from time to time, as they may see cause, to examine, upon oath, the Physicians and others attending his Majesty's health, and all matters relative thereto.

To which" address his Royal Highness returned the following most gracious answer:—

The answer of his Royal Highness the Prince of Wales.

"My Lords and Gentlemen,

"I receive the communication which the two Houses have directed you to make to me, of their joint resolutions, on the subject of providing for "the exercise of the royal authority, during his majesty's illness," with those sentiments of regard which I must ever entertain for the united desires of the two houses.

"With the same sentiments I receive the expressed "hopes of the Lords and Commons, that from my regard for the interest of his Majesty and the nation, I should be ready to undertake the weighty and important trust proposed to be invested in me," under the restrictions and limitations stated in those resolutions.

"Conscious that every feeling of my heart would have prompted me, from dutiful affection to my beloved Father and Sovereign, to have shewn all the reverential delicacy towards him inculcated in those resolutions, I cannot refrain from expressing my regret, that I should not have been allowed the opportunity of manifesting to his afflicted and loyal subjects that such would have been my conduct.

"Deeply impressed however, with the necessity of tranquillizing the public mind, and determined to submit to every personal sacrifice consistent with the regard I owe to the security of my Father's Crown and the equal regard I owe to the welfare of his people, I do not hesitate to accept the office and situation proposed to me, restricted as they are, still retaining every opinion expressed by me upon a former and similar distressing occasion.

"In undertaking the trust proposed to me, I am well aware of the difficulties of the situation in which I shall be placed; but I shall rely with confidence upon the Constitutional advice of an enlightened Parliament, and the zealous support of a generous and loyal people.—I will use all the means left me to merit both.

"My Lords and Gentlemen,

"You will communicate this my answer to the two houses, accompanied by most fervent wishes and prayers, that the Divine Will may extricate us and the nation from the grievous embarrassments of our present condition, by the speedy restoration of his majesty's health."

This answer was delivered by the Prince with that most graceful and dignified deportment which so peculiarly distinguish his Royal Highness.

The deputation then withdrew, viz.—Earl Harcourt, Earl of Moreton, Lord Viscount Palmerston, Lord Viscount Clive, Lord John Thynne, and Colonel Desbrow.

Speaker of the House of Representatives,
JOHN POPE, *President of the Senate,* pro tempore.
March 2, 1811—Approved,
JAMES MADISON

From a late London Paper

About a fortnight ago, as the mail, on its way from Preston to Manchester, was changing horses at Chorley; at 12 at night, the fresh horses having been put to, coachee went to fetch some straw to sit upon, when the horses set off, in spite of the coachman, guard, and three passengers; the coachman followed on foot, and the guard and passengers in a post chaise. The horses steadily pursued their course until they arrived at Red Bank Brow, 1 mile, where they stopped as is usual while one of the wheels is locked. A countryman then called out to be taken up, and thinking the coachman was inside, seated himself in the guard's rostrum, and crying "go on!" off went the horses again down hill at full speed, never stopping before they arrived at the Elephant and Castle, four miles further, where the coach has constantly occasion to stay a short time; the countryman then alighted, and proceeded to invite the coachman to a glass, when all he found inside was the fourth passenger, who had been asleep all the time. The animals had passed several carts and waggons on the way.

WASHINGTON JOCKEY CLUB RACES.

A sweepstakes will soon be run over this course for the Presidential Plate valued at ONE HUNDRED THOUSAND DOLLARS.

Four horses are already entered whose known speed promises excellent amusement to amateurs of the sports of the turf

The *JAMES MADISON*, who won the two last plates, is entered for this also; but it is supposed he will be drawn before the running commences to make room for

The *MONROE*, a horse possessing many excellent qualities and *good bottom* but no great speed. He was distanced at the last races, but the *knowing ones* assert it was owing to *foul play.*

The *BOB SMITH* is entered by a company to oppose the *MONROE*; but those who know him assert that he is *not sound.* It is said also that he will be obliged to carry *too much weight** and that he is fit for nothing but a *scrub race.*

The *GENERAL ARMSTRONG* is becoming a favorite with many, and large bets are already made that he will win. In his youth he was pronounced *vicious* and *cried* down by an experienced sportsman † but many think he has improved by age and that the chances are now in his favor *against the field.*

As it is *neck or nothing* with most of the candidates, every horse will be pushed to the *top of his speed,* from the word *Go!* and it is thought that one or two of them will inevitably be *broke down.*

A large proportion of those who attend will be indifferent spectators of the race, careless "who loses or who wins" and ready with the Poet to exclaim "*occupet extremum scabies*"—let the *devil take the hindmost.*

* One hundred and fifty-six thousand dollars worth of bills of exchange.

† Armstrong's address to the army, at the close of the revolution and General Washington's denunciation of him.

To the Public.

A Report having for some time prevailed, that the undersigned was determined to remove from Maysville; he takes this method of informing his friends that no snch thought has existed with him—nor, would he be so ungrateful to a generous public, as to announce such a determination at an early date. —

Sensible of past favors to those merchants and manufacturers who have committed their business to him as a commission merchant—takes the liberty of assuring them that no exertions shall be wanting to give satisfaction.

Has lately erected two extensive

Ware-Houses,

which are now in ample order for the reception of such merchandize and country produce as may be forwarded to his care; and pledges himself to do business on as low terms as any regular house in the place.

His TAVERN is also in complete order, for the reception and accommodation of those gentlemen travellers who may please to favor him with a call, and hopes from his long experience and strict attention to business to merit a part of the public patronage.

T. W. DYOTT, M. D.

Dr. Robertson's

INFALLIBLE

Worm-Destroying Lozenges,

A Medicine highly necessary to be kept in all Families.

Worms which affect the human body are chiefly of three kinds, viz. *Taenia* or tape worm, the *Teres*, or round and long worm, and the *Ascarides*, or round and short worm. There are many kinds of worms found in the human body, but they proceed in a great measure, from similar causes, have nearly the same symptoms, and require the same method of treatment as those already mentioned.

The *Tape worm* is white; very long and full of joints, it is generally bred in the stomach or small intestines. The *round and long worm* is likewise bred in the small intestines, and sometimes in the stomach. The *round and short worm* commonly lodge in the rectum, or what is called the end intestines, and occasion a disagreeable itching about the seat.

The long round worms have been known to perforate the intestines, and get into the cavity of the belly, the effects of the tape worm are nearly the same with those of the long and round, but rather more violent.

SYMPTOMS.

The common symptoms of Worms are, paleness of the countenance, at other times, flushing of the face, itching of the nose, and about the seat; starting and grinding of the teeth in sleep; swelling of the upper lip, the appetite sometimes bad, at other times very voracious; looseness; disagreeable breath; a hard swelled belly; great thirst; the urine frothy; and sometimes of a whitish color; griping or cholic pains; an unvoluntary discharge of saliva especially when asleep; frequent pains in the side, with a dry cough, and unequal pulse; palpitations of the heart, swoonings; cold sweats; palsy; epeleptic fits, *etc.*

Though numberless medicines are extolled for expelling and killing worms, none are equal in efficacy to *Dr. Robertson's Worm Destroying Lozenges*, they are mild in their operation, and may be given to the youngest infant with safety.

The above Lozenges are for Sale by

J. P. & J. W. SKELTON,

Dr. Dyott's

ANTI-BILIOUS PILLS,

For the Prevention and Cure of Bilious and Malignant Fevers.

The numerous cures performed by the above Pills, have induced the inventor at the solicitation of many respectable citizens who have experienced their beneficial and salutary effects, to make them publickly known for the benefit of mankind in general.

They are principally composed of vegetable gums and roots, in whose balsamic medical qualities, their excellence consists, without the falacious aid of those mineral substances, too often destructive to the animal coustitution.

These Pills if timely administered, will remove the causes which commonly produce Yellow Fevers, Bilious-Fevers, Ague and Fever, Cholic, Pains, Flatulencies, Indigestion, Costiveness, Hipochondral and Hysteric complaints, Stranguary, Gravil, Rheumatism and Gout

They are peculiarly serviceable in Female disorders, and especially in the removal of those obstructions which are the great source of their complaints at certain periods, they possess this eminent advantage over most other purgatives, that while they operate gently, they produce neither costiveness, Debility nor too great excitement, whenever there is a predisposition to a disease arising from marsh effluvia, a too copious use of ardent spirits or a vitiated state of the bile, they are sure to relieve.

They are highly recommended to travellers by sea and land, as they may be made use of with the utmost safety, without change of diet or exercise. They will be found peculiarly beneficial in the prevention of disorders incidental to hot climates, they deterge and cleanse vicid humour open obstructions and promote the secretion of good bile, operating as an easay cathartic, as a powerful diuretic and diaphoretic.

The above Pills are for Sale by

J. P. & J. W. SKELTON,

Dr. Dyott's

PATENT ITCH OINTMENT.

For plesantness, safety, expedition, ease and certainty, is infinitely superior to any other medicine for the cure of that most disagreeable and tormenting disorder THE ITCH.

This disease is most commonly communicated by infection, it generally appears in form of small watery pustles, first about the wrists or between the fingers, afterwards it affects the arms, legs, &c. These pustles are attended with an intolerable itching, especially when the patient is warm in bed or sits by the fire, sometimes indeed the skin is covered with large blotches or scabs, and at other times with a white scruff, or scaly eruption, this last is called the Dry Itch, and is the moet difficult to cure.

The above ointment is so certain in its operation, that it has never failed in any one instance whatever of effectually curing that disorder though applied to many thousands.

The above Ointment is for Sale by

J. P. & J. W. SKELTON,

DRUGGISTS.

(Price 50 cents per Box.)

LOTS in the town of SHENANGO.—This town is laid out in the big bend of Shenango river, near the centre of Mercer county, and about 55 miles north-west from Pittsburgh. It possesses many advantages well calculated to render the Lots valuable. The situation and plan of the town are handsome—a navigable water passes through it, as also does the main road from Pittsburgh, by way of Mercer, to New-Connecticut, in the state of Ohio. It is surrounded by a delightful country—fertile, well watered and healthy—lies nearly central between Lake Erie and the Ohio river, in the route intended by nature to connect the interests of those waters—indeed it must become the concentrating point of trade between them. From the many advantages it combines it must unquestionably become a place of considerable trade. A number of Lots being already disposed of, improvements will be immediately commenced, and will be very much promoted in their progress, by the Legislature having passed a law appropriating a sum of money for building a bridge over the Shenango, in the town, which, in all probability, will be completed this season.

Likewise for Sale,

A VALUABLE SEAT FOR MILLS, on the Lachawanick, near its mouth, and within a few perches of the town of Shenango, together with any quantity of land adjoining, from 50 to 200 acres. A Saw-mill would find full employ immediately, and a Grist-mill by the time it can be erected. All the sawing necessary for the improvement of the town may be done there; and rafts of timber, descending the Shenango, can be floated up the Lachawanick to the mill, without difficulty, as it will stand but a few perches from its mouth.

The above Lands and Lots will be sold cheap, for cash or good payments, and indisputable titles given. Application to be made to the subscriber, at No. 283, Arch-street, Philadelphia.

May 1810. JOSEPH MORRISON,

N. B. A plan of the Town may be seen at Mr. Robert Spencer's, Pittsburgh & Mr. William M'Millan's, Mercer; and at the subscriber's, Philadelphia.
